

How to Make a “Weird” Paper Airplane that Flies:

- 1) Fold an 8”x11” sheet of paper just off the diagonal to make two side-by-side triangles
- 2) Flip over
- 3) Fold up the long-edge to make a small band
- 4) Repeat step (3) two or three times until the band is longer than the triangles
- 5) With the band on the outside, form the band into a circle
- 6) Tuck in the pointy end of the band into the other side
- 7) Throw by holding the triangle-tips and gently push
